Dear Professor Lederberg,

Enclosed please find a xerox copy of the article entitled "Generalization of the graph center concept, and derived topological centric indexes" by D. Bonchev, A. T. Balaban, and O. Mekenyan. I would like appologizing myself for the lack of original reprints.

Simultaneously, I would appreciate the receiving of a collection of your reprints or preprints on the generation of graphs. I would also be happy to receive a listing of your famous DENDRAL program (even the older version) for which I have some information from Professor Balaban.

Thank you for your courtesy

Yours sincerely:

D. Bonchev

Thanks you for the reprint.

I have referred your letter back to my colleagues at Stanford, who have all the materials.

Sincerely,

Joshua Lederberg
